Athnan Janzeer

Pattakadu, Vavuniya, Sri Lanka | janzeerathnan01@gmail.com | +94 76 684 5867 | DOB: 28-08-2002

Professional Summary

Organized and proactive IT undergraduate with hands-on experience in software development, project coordination, and client communication. Skilled in planning tasks, managing timelines, documenting project updates, and supporting Agile/Scrum workflows. Experienced in tracking project progress, preparing reports, and coordinating with development, design, and QA teams. Looking to contribute to structured project execution, documentation, and cross-team collaboration as a Project Manager Intern in a modern tech-driven environment.

Project Management Skills

- Project planning, timelines & task breakdown
- Sprint planning & backlog tracking
- Agile/Scrum fundamentals (stand-ups, retros, reviews)
- Requirement gathering & stakeholder communication
- Risk, blocker & dependency tracking
- Project documentation (charters, notes, change logs, status reports)
- Progress tracking using Sheets, checklists & simple dashboards
- Cross-functional coordination (Dev, UI/UX, QA)

Tools

Project Management: Jira (Beginner), Notion (Beginner), Trello (Intermediate)

Productivity: Google Sheets, Excel (timelines, Gantt views), Git/GitHub

Design Communication: Figma, Adobe XD

Technical Skills

Programming: JavaScript, Python, Java, PHP, C# (Intermediate)

Frontend: React.js, HTML5/CSS3, Tailwind CSS, React Native

Backend: Node.js, Express.js, Laravel, REST APIs

Databases: MySQL, MongoDB

AI: LLMs (DeepSeek), basic AI model integration

Design: Figma, Photoshop, Illustrator

Other: Linux Terminal, MERN Stack, Vite

Experience

Full Stack Developer (with Project Coordination Responsibilities), Employee Management System   2025 – Present

- Collaborated with developers, designers, and stakeholders to refine requirements and clarify expectations
- Assisted in planning sprints, breaking down tasks, and tracking progress
- Coordinated updates, feedback cycles, and communication between clients and the dev team
- Maintained key project documentation including feature lists, updates, and technical decisions
- Supported release planning and deployment coordination
- Developed core features including authentication, attendance, reporting, and biometric integrations

Software Developer, Freelancer (Part-Time)   2025 – Present

- Delivered 10+ projects end-to-end for local businesses, from requirement gathering to final deployment

- Created structured work plans, timelines, and progress reports for clients
- Managed change requests, feature prioritization, and UI/UX refinements
- Communicated tasks, deadlines, and expectations clearly to clients
- Provided additional design support including banners, posters, and marketing materials

Key Projects

E-Farmers Platform (AI-Powered) 2025
- Developed an LLM-powered solution analyzing 5 years of paddy price data
- Integrated weather/climate patterns to produce forecasting insights
- Enabled farmers to get automated pricing recommendations

Personal AI Assistant (DeepSeek LLM) 2025
- Built a custom intelligent assistant with a simple UI
- Worked on prompt engineering, feature documentation, and API integration

Employee Management System 2025
- Designed and developed a full-stack system with biometric-based attendance and real-time tracking
- Managed structured communication with stakeholders and testers

Education

Sri Lanka Institute of Technology Campus (SLTC), BA in Applied Information Technology — Currently Pursuing

Sri Lankan Youth Center, Management Course — Completed

Open University, Vavuniya, IT Certificate Course — Completed

Core Competencies

- **Team Coordination:** Effective collaboration with cross-functional teams
- **Client Communication:** Clear and professional stakeholder interactions
- **Documentation & Reporting:** Comprehensive project documentation and status reporting
- **Critical Thinking:** Analytical problem-solving approach
- **Task Prioritization:** Efficient workload management and deadline adherence
- **Time Management:** Strong organizational skills for multiple projects
- **Adaptability:** Quick learner with flexibility in dynamic environments
- **Leadership & Initiative:** Proactive approach to project challenges

Events & Achievements

- 3rd Place – PovertyHack 2025 Hackathon
- Organized No-Code Low-Code Hackathon at ICST University Park

Languages

Tamil: Native | **English:** Fluent | **Sinhala:** Good
